

## 3 GANG BRIQUETTE MOULD (BRASS)

Standard: ASTM C307

Cast-bronze briquette mold for hydraulic cement mortar tensile strength tests. Bronze clamps with pins hold the two mold halves securely. Designed to prevent spreading during molding. The minimum cross section of the briquettes cast is 25.4 mm x 25.4 mm

### Technical Specifications :

<b>Model Number</b>	NL 3038 X / 001 – P 002
Product Description	3 Gang Briquette Mould "8" Shape
Material	Brass
Minimum Cross Section	25.4 mm x 25.4 mm
Product Dimension	315 mm x 80 mm x 25 mm
Approx. Weight	1.8 kg
